Beyond the Trans-Siberian 2019-11-22

does living in a globally networked society mean that we are moving toward a single homogenous world culture or are we headed for clashes between center and periphery imperial and subaltern western and non western first and third world the interdisciplinary essays in beyond globalization present us with another possibility that new media will lead to new kinds of worldmaking this provocative volume brings together the best new work of scholars within such diverse fields as history sociology anthropology film media studies and art whether examining the inauguration of a virtual community on the website second life or investigating the appropriation of biotechnology for transgenic art this collection highlights how mediated practices have become integral to global culture how social practices have emerged out of computer related industries how contemporary apocalyptic narratives reflect the anxieties of a u s culture facing global challenges and how design play and technology help us understand the histories and ideals behind the digital architectures that mediate our everyday actions

Reality Beyond Belief 2012-07-11

the thought behind this publication is to continue to develop an active research community dedicated to explore how smart homes and health telematics can foster independent living and offer an enhanced quality of life for ageing and disabled people as we begin to witness the effects of changing demographics on today's society we begin to appreciate that the increase in the number of elderly and in the prevalence of those suffering from chronic disease and disabilities are likely to further increase in the next two to three decades to react to the needs of this cohort to provide an environment within which the people can reside for as long as possible whilst maintaining their quality of life and independence is a widespread concern for all as such there is real benefit to further investigate the role of technologies to address these changes and subsequently offer practical solutions to support independent living the editors feel that within the realms of smart homes and health telematics real affordable and useful services can be developed which will have the necessary underlying technological and service delivery infrastructures to allow seamless integration into existing care delivery paradigms the introduction of technology can provide a positive impact however it is necessary to avoid any detrimental effects if reliance upon technology within the home environment becomes so great that people will not leave their own home in fear of losing the support once outside of the home or its close proximity this publication focuses on promoting personal autonomy and extending the quality of life by considering including smart services inside and outside of the home

Coping with Trauma-related Dissociation 2011-03-15

seventeen moving testimonies of how cwr s ministry has worked powerfully in people s lives one tells how a yachtsman came face to face with jesus when wrongfully imprisoned for drug smuggling another of a father being ministered to following the murder of his daughter others tell of complete victory being gained over anorexia and of how cwr has become a catalyst for other important ministries around the world
