Routledge Japanese studies series 1992 over the last 70 years japanese studies scholarship has gone through several dominant paradigms from demystifying the japanese to analysis of japanese economic strength to discussion of global interest in japanese popular culture this book assesses this literature considering future directions for research into the 2020s and beyond shifting the geographical emphasis of japanese studies away from the west to the asia pacific region this book identifies topic areas in which research focusing on japan will play an important role in global debates in the coming years this includes the evolution of area studies coping with aging populations the various patterns of migration and environmental breakdown with chapters from an international team of contributors including significant representation from the asia pacific region this book enacts yoshio sugimoto s notion of cosmopolitan methodology to discuss japan in an interdisciplinary and transnational context and provides overviews of how japanese studies is evolving in other asian countries such as china and indonesia new frontiers in japanese studies is a thought provoking volume and will be of great interest to students and scholars of japanese and asian studies the introduction and chapter 1 of this book is freely available as a downloadable open access pdf at taylorfrancis com under a creative commons attribution non commercial no derivatives cc by nc nd 4 0 license

New Frontiers in Japanese Studies 2020-04-02 over the last 70 years japanese studies scholarship has gone through several dominant paradigms from demystifying the japanese to analysis of japanese economic strength to discussion of global interest in japanese popular culture this book assesses this literature considering future directions for research into the 2020s and beyond shifting the geographical emphasis of japanese studies away from the west to the asia pacific region this book identifies topic areas in which research focusing on japan will play an important role in global debates in the coming years this includes the evolution of area studies coping with aging populations the various patterns of migration and environmental breakdown with chapters from an international team of contributors including significant representation from the asia pacific region this book enacts yoshio sugimoto s notion of cosmopolitan methodology to discuss japan in an interdisciplinary and transnational context and provides overviews of how japanese studies is evolving in other asian countries such as china and indonesia new frontiers in japanese studies is a thought provoking volume and will be of great interest to students and scholars of japanese and asian studies

Sheffield Centre for Japanese Studies/RoutledgeCurzon Series 1992 as japan enters the 21st century with a new emperor this title continues to be an indispensable guide through often enigmatic and historical idiosyncrasies of japanese culture and politics that are often confusing to the outsider this title includes information on the latest social developments customs rituals business culture medicine and arts

New Frontiers in Japanese Studies 2021-12-13 this book explores the myth so abused by the mass media that the japanese are a grey anonymous mass of efficient obedient workers the articles shed light on a japan outside officialdom a lively japan of tumultuous and independent thought inefficient and aesthetic pleasure loving aggressive and wasteful creative and anti authoritarian the book s truly international contributors examine the role in modern japanese society of a range of leisure and play activities from drinking to travel football to karaoke tattoos to rock fandom they explore how things which seem like play in one context are deadly serious in another and how the fun and enjoyment may be achieved in unexpected ways they also draw attention to the importance of such activities in understanding the deeper structure and meaning pervading all areas of the society in which they take place this book will be of great interest to students and scholars of japanese studies sociology anthropology and cultural studies

The University of Sheffield/Routledge Japanese Studies Series 2018 the routledge handbook of contemporary japan presents a synthesized interdisciplinary study of contemporary japan based on up to date theoretical models designed to provide readers with a comprehensive and full understanding of the dynamics of contemporary japan in order to achieve this the handbook is organized into two parts part i foundations clarifies the state of contemporary japan topic by topic by referring to the latest theoretical developments in the relevant disciplinary fields of politics international relations economy society culture and the personal part ii issues then offers a series of concrete analyses building upon the theoretical discussions introduced in part i to help undergraduate and postgraduate students learn how to conduct independent analysis locating japan in a comparative and interdisciplinary perspective this handbook is an essential resource for students and

scholars interested in japanese studies asian studies and global studies

Understanding Japanese Society 2003 the routledge handbook of japanese culture and society is an interdisciplinary resource that focuses on contemporary japan and the social and cultural trends that are important at the beginning of the twenty first century this handbook provides a cutting edge and comprehensive survey of significant phenomena institutions and directions in japan today on issues ranging from gender and family the environment race and ethnicity and urban life to popular culture and electronic media written by an international team of japan experts the chapters included in the volume form an accessible and fascinating insight into japanese culture and society as such the handbook will be an invaluable reference tool for anyone interested in all things japanese students teachers and professionals alike will benefit from the broad ranging discussions useful links to online resources and suggested reading lists the handbook will be of interest across a wide range of disciplines including japanese studies cultural studies anthropology sociology and asian studies in general

Japan at Play 2005-08-10 japanese studies has provided a fertile space for non eurocentric analysis for a number of reasons it has been embroiled in the long running internal debate over the so called nihonjinron revolving around the extent to which the effective interpretation of japanese society and culture requires non western japan specific emic concepts and theories this book takes this question further and explores how we can understand japanese society and culture by combining euro american concepts and theories with those that originate in japan because japan is the only liberal democracy to have achieved a high level of capitalism outside the western cultural framework japanese studies has long provided a forum for deliberations about the extent to which the western conception of modernity is universally applicable furthermore because of japan s military economic and cultural dominance in asia at different points in the last century japanese studies has had to deal with the issues of japanocentrism as well as eurocentrism a duality requiring complex and nuanced analysis this book identifies variations amongst japanese studies academic communities in the asia pacific and examines the extent to which relatively autonomous scholarship intellectual approach or theories exist in the region it also evaluates how studies on japan in the region contribute to global japanese studies and explores their potential for formulating concrete strategies to unsettle eurocentric dominance of the discipline

The Nissan Institute Routledge Japanese studies series 19?? the new edition of this comprehensive and user friendly textbook provides a single volume resource for all those studying japan s international relations

Routledge Handbook of Contemporary Japan 2020-09-21 with the ever growing contact between japan and the rest of the world comes an increasingly important need to understand a society that is fascinating but still often confusing to the outsider in this brand new fourth edition of understanding japanese society joy hendry brings the reader up to date both with recent changes as japan hit the world headlines under the triple 2011 disasters and with underlying continuities in ways of thinking that have matured over a long history of dealing with foreign influences and an unpredictable environment this welcome new edition of hendry s bestselling introductory textbook provides a clear accessible and readable introduction to japanese society which does not require any previous knowledge of the country fully updated revised and expanded the fourth edition contains new material on the effects of the earthquake tsunami and nuclear disasters of 2011 a renewed interest in politics and popular participation increased frequency of local spiritual support as unemployment continues to grow and marriage gets later and later the effects of a dramatic drop in the birth rate on japan s education system the continuing global success of japanese animation manga and computer games despite a turn away from international travel the cool new ainu the attraction of healing okinawa and changes among other japanese minorities a new role for japanese fathers in child rearing this book will be invaluable to all students studying japan it will also enlighten those travellers and business people wishing to gain an understanding of the japanese people

Routledge Handbook of Japanese Culture and Society 2011-04-13 this book inquires what is meant when we say local and what local means in the japanese context through the window of locality it enhances an understanding of broader political and socio economic shifts in japan this includes demographic change electoral and

administrative reform rural decline and revitalization welfare reform as well as the growing metabolic rift in energy and food production chapters throughout this edited volume discuss the different and often contested ways in which locality in japan has been reconstituted from historical and contemporary instances of administrative restructuring to more subtle social processes of making and unmaking local places contributions from multiple disciplinary perspectives are included to investigate the tensions between overlapping and often incongruent dimensions of locality framed by a theoretical discussion of socio spatial thinking such issues surrounding the construction and renegotiation of local places are not only relevant for japan specialists but also connected with topical scholarly debates further afield accordingly rethinking locality in japan will appeal to students and scholars from japanese studies and human geography to anthropology history sociology and political science

Rethinking Japanese Studies 2017-08-04 japan and okinawa provides an up to date coherent and theoretically informed examination of okinawa from the perspective of political economy and society it combines a focus on structure and subjectivity as a way to analyze okinawa okinawans and their relationship with global regional and national structures the book draws on a range of disciplines to provide new insights into both the contemporary and historical place of okinawa and the okinawans the first half of the book examines okinawa as part of the global regional and national structures which impose constraints as well as offer opportunities to okinawa leading specialists examine in detail topics such as okinawa as a frontier region okinawa s free trade zones and response to globalization and okinawa as part of the japanese construction state being particularly concerned with how okinawa can chart its own course the second half focuses on questions of identity and subjectivity examining the multitude of vibrant cultural practices that breathe life into the meaning of being okinawan and inform their social and political responses to structural constraints the originality of this book can be found in its elucidation of how the structural constraints of okinawa s precarious position in the world the region and as part of japan impact on subjectivity for many okinawans in the past as now acceptance and rationalization of their dependency has made them collaborators in their own subordination at the same time however they have demonstrated a capacity to give voice to a separate identity inscribing cultural practices marking them as different from mainland japanese

Japan's International Relations 2013-01-11 the routledge course in japanese translation brings together for the first time material dedicated to the theory and practice of translation to and from japanese this one semester advanced course in japanese translation is designed to raise awareness of the many considerations that must be taken into account when translating a text as students progress through the course they will acquire various tools to deal with the common problems typically involved in the practice of translation particular attention is paid to the structural differences between japanese and english and to cross cultural dissimilarities in stylistics essential theory and information on the translation process are provided as well as abundant practical tasks the routledge course in japanese translation is essential reading for all serious students of japanese at both undergraduate and postgraduate level

Japanese Studies Series 198? the internationalization of japan provides the english speaking reader with the opportunity to hear what some of japan s leading social scientists and other commentators have to say about the internationalization of their country as well as their country s impact overseas the topic is of extreme importance now as the international community demands a greater japanese contribution to international society as well as changes in japan to facilitate foreign access the book discusses the internationalization of politics economy and society topics of special interest include the internationalization of japanese capital the response of japanese society to foreign workers local level initiatives for internationalization and the internationalization of education to place the internationalization of japan in comparative perspective there are chapters on britain and the united states from a leading british and a leading american political scientist respectively these two and the editors aside all the contributors are highly regarded japanese scholars or commentators

Understanding Japanese Society 2012-10-02 this book studies specific regional issues and problems exploring recent related political developments in japan and how these might impact on future foreign policy priorities and objectives the expert body of contributors consider issues such as the nexus between domestic politics and

foreign policy environmental aid and management human rights and democracy and conflict management

Rethinking Locality in Japan 2021-07-20 this book provides a history of nikkeiren the japanese federation of managers organisations and an account of post war capitalist development in japan the author challenges the principal interpretations of how the economy functions revealing a darker side of japanese capitalism in his examination of the roles played by class power manipulation and mystification

Japan and Okinawa 2003-08-29 nationalisms in japan brings together leading specialists in the field to discuss how notions of nationalism in modern japan impinges on all aspects of social political and cultural understanding of the japanese nation or the japanese state this book is clearly presented and jargon free and encompasses a chronological period of roughly two hundred years beginning with a discussion of some of the early japanese national thinkers of the mito school and ending with a contemporary discussion of the official visits made by prime minister koizumi jun ichiro to the highly controversial yasukuni shrine this wide chronological period allows for important observations about the evolution of nationalism suggesting that japan actually houses multiple nationalisms presenting new insights and understanding this is a valuable addition to those working on modern japan and nationalism

The Routledge Course in Japanese Translation 2013-05-13 presenting new approaches and results previously inaccessible in english the routledge handbook of japanese sociolinguistics provides an insight into the language and society of contemporary japan from a fresh perspective while it was once believed that japan was a linguistically homogenous country research over the past two decades has shown japan to be a multilingual and sociolinguistically diversifying country building on this approach the contributors to this handbook take this further combining japanese and western approaches alike and producing research which is relevant to twenty first century societies organised into five parts the sections covered include the languages and language varieties of japan the multilingual ecology variation style and interaction language problems and language planning research overviews with contributions from across the field of japanese sociolinguistics this handbook will prove very useful for students and scholars of japanese studies as well as sociolinguists more generally

Regional Risk and Security in Japan 2015 japan is regarded as a world leader in the field of education and training for improved economic performance yet success in japan is often achieved by going against what is regarded as ideal practice elsewhere this book offers the most comprehensive review available in english of the many facets of japanese vocational education and training covering the system from primary education through to in job training offered by companies this book provides a detailed study of current practice giving equal emphasis to formal training in explicitly vocational courses and informal training in factories shops and offices the authors analyse the difference between substantive person changing training and mere ability labelling they raise important questions such as to what extent does the need to package skills to provide convenient qualifications distort the actual training given how efficient is it to rely on professional trainers to certify the acquisition of skills rather than run separate testing systems the authors reveal how in japanese companies employees are strongly motivated by pride in the successful execution of their jobs and that much company training is carried out by colleagues

The Right to Life in Japan 1997 ranging from the tokugwa period to the present day this text provides a concise and fascinating introduction to the social cultural and political history of modern japan tipton covers political and economic developments and shows how they relate to social themes and developments her survey covers traditional political history as well as areas growing in interest gender issues labor conditions and ethnic minorities

The Internationalization of Japan 2013-03-07 made in japan serves as a comprehensive and rigorous introduction to the history sociology and musicology of contemporary japanese popular music each essay written by a leading scholar of japanese music covers the major figures styles and social contexts of pop music in japan and provides adequate context so readers understand why the figure or genre under discussion is of lasting significance the book first presents a general description of the history and background of popular music followed by essays organized into thematic sections putting japanese popular music in perspective rockin japan and japanese popular music and visual arts

Japan and East Asian Regionalism 2012-12-06 the routledge handbook of modern japanese literature provides a comprehensive overview of how we study japanese literature today rather than taking a purely chronological approach to the content the chapters survey the state of the field through a number of pressing issues and themes examining the ways in which it is possible to read modern japanese literature and situate it in relation to critical theory the handbook examines various modes of literary production such as fiction poetry and critical essays as distinct forms of expression that nonetheless are closely interrelated attention is drawn to the idea of the bunjin as a person of letters and a more realistic assessment is provided of how writers have engaged with ideas not labelled a novelist or poet but a writer who may at one time or another choose to write in various forms the book provides an overview of major authors and genres by situating them within broader themes that have defined the way writers have produced literature in modern japan as well as how those works have been read and understood by different readers in different time periods the routledge handbook of modern japanese literature draws from an international array of established experts in the field as well as promising young researchers it represents a wide variety of critical approaches giving the study a broad range of perspectives this handbook will be of interest to students and scholars of asian studies literature sociology critical theory and history

Nikkeiren and Japanese Capitalism 2004-06-01 this book explores the myth so abused by the mass media that the japanese are a grey anonymous mass of efficient obedient workers the articles shed light on a japan outside officialdom a lively japan of tumultuous and independent thought inefficient and aesthetic pleasure loving aggressive and wasteful creative and anti authoritarian the book s truly international contributors examine the role in modern japanese society of a range of leisure and play activities from drinking to travel football to karaoke tattoos to rock fandom they explore how things that seem like play in one context are deadly serious in another and how the fun and enjoyment may be achieved in unexpected ways they also draw attention to the importance of such activities in understanding the deeper structure and meaning pervading all areas of the society in which they take place this book will be of great interest to students and scholars of japanese studies sociology anthropology and cultural studies

Nationalisms in Japan 2006-09-27 the japanese education system has attracted increasing attention over the past 20 years largely due to the belief that it has been central to japan s economic growth many have felt however that the system is stunted by an inability or perhaps even on an incapacity to change this study challenges these contentions it examines the reform policies implemented by prime minister nakasone during the 1980s and argues that not only has the system changed considerably as a result of nakasone s work but that it continues to do so it analyses the key areas of the education reform debate in particular internationalism government control of education increased liberalization and various social problems and considers the degree to which response to them have been successful this book will be of great interest to all those interested in the japanese educational system

Routledge Handbook of Japanese Sociolinguistics 2019-06-05 from the 1960s onwards japan s rapid economic growth coincided with remarkably low youth unemployment however since the 1990s the ease with which young people have historically moved from education to employment has ended and unemployment is now a real and growing problem in contemporary japan japan s emerging youth policy examines how the state experts the media as well as youth workers have responded to the troubling rise of youth joblessness in 21st century japan the answer that emerges from this analysis is as complex as it is fascinating but comprises two essential elements first instead of institutional carrots and sticks as seen in europe actors belonging to mainstream japan have deployed controversial labels such as neet not in education employment or training to steer inactive youth into low wage jobs however a second approach has been crafted by entrepreneurial youth support leaders that builds on what the author refers to as communities of recognition as demonstrated at real sites of youth support one such methodology consists of exploring the user i e the support receiver whereby complex disadvantages family relationships and local employment contexts are skilfully negotiated it is this second dimension in japan s response to youth exclusion that suggests sustainable solutions to the employment dilemmas that virtually all post industrial nations currently face but which none have yet seriously addressed based on extensive fieldwork draws on both sociological and policy science approaches this book will be

welcomed by students scholars and practitioners of japanese east asian and comparative social policy welfare culture and society

How the Japanese Learn to Work 2012-10-02 historical surveys of postwar japan are usually established on the grounds that the era is already over interpreting postwar to be the years directly proceeding world war ii however the contributors to this book take a unique approach to the concept of the postwar epoch and treat it as a network of historical time frames from the modern period and connect these time capsules to the war to which they are inextricably linked the books strength is in its very interdisciplinary approach to examining postwar japan and as such it includes chapters centred on subjects as diverse as politics poetry philosophy economics and art which serve to fill the blanks in the collective cultural memory that historical narratives leave behind originally published in french this new translation offers the english speaking world important access to a major work on japan which has been greatly enriched by the translator s great accuracy and knowledge of english french and japanese language history and culture japan s postwar will appeal to students and scholars of japanese studies and modern japanese history as well as historians studying the world after 1945

Modern Japan 2002 this book examines the transition within the japanese party system that has seen the demise of the old socialists the japan socialist party and in its place the emergence of the democratic party of japan as the leading opposition party sarah hyde has produced an original book which looks at the intra left non communist opposition party manoeuvrings during the 1990s through to the new millennium in a highly detailed and focused manner whilst simultaneously looking at the three most significant changes for the left nationally the change to the electoral system the change to public opinion regarding defense and the constitution after the first gulf war and the changes to the labour union movement ending with a chapter on the incredibly important 2007 upper house election which brings the development of the opposition full circle this book will be a valuable source for students and scholars of japanese politics electoral systems and opposition politics

Made in Japan 2014-07-17 brian j mcveigh uses a unique anthropological approach to step outside flawed stereotypes of japanese society and really engage in the current debate over the role of bureaucracy in japanese politics to many in the west japan appears as a paradox a rational high tech economic superpower and yet at the same time a deeply ritualistic and ceremonial society this adventurous new study demonstrates how these nominally conflicting impressions of japan can be reconciled and a greater understanding of the state achieved

Routledge Handbook of Modern Japanese Literature 2016-06-03 the routledge course in japanese translation brings together for the first time material dedicated to the theory and practice of translation to and from japanese this one semester advanced course in japanese translation is designed to raise awareness of the many considerations that must be taken into account when translating a text as students progress through the course they will acquire various tools to deal with the common problems typically involved in the practice of translation particular attention is paid to the structural differences between japanese and english and to cross cultural dissimilarities in stylistics essential theory and information on the translation process are provided as well as abundant practical tasks the routledge course in japanese translation is essential reading for all serious students of japanese at both undergraduate and postgraduate level

Japan at Play 2005 post war japan was often held up as the model example of the first mature industrial societies outside the western economy and the first examples of middle mass society today and since the bursting of the economic bubble in the 1990 s the promises of japan inc seem far away social class in contemporary japan is the first single volume that traces the dynamics of social structure institutional socialization and class culture through this turbulent period all the way into the contemporary neoliberal moment in an innovative multi disciplinary approach that include top scholars working on quantitative class structure policy development and ethnographic analysis this volume highlights the centrality of class formation to our understanding of the many levels of japanese society the chapters each address a different aspect of class formation and transformation which stand on their own taken together they document the advantages of putting japan in the broad comparative framework of class analysis and the enduring importance of social class to the analysis of industrial and post industrial societies

written by a team of contributors from japan the us and europe this book will be invaluable to students and scholars of japanese society and culture as well as those interested in cultural anthropology and social class alike

Japanese Education Reform 2003-09-02 the popular perception of japanese society is that it possesses a homogeneity and cultural conformity unlike anything to be found in the west in fact japan has its own underclass living outside the mainstream in economic circumstances that are radically different to the more usual perception of a wealthy and successful society carolyn s stevens has produced a new study that intimately explores the lives of japan s social outcasts as well as those volunteers who seek to help them and as a consequence become socially marginalized themselves

Japan's Emerging Youth Policy 2013 japanese society in the 1990s and 2000s produced a range of complicated material about sexualized schoolgirls and few topics have caught the imagination of western observers so powerfully while young japanese girls had previously been portrayed as demure and obedient in training to become the obedient wife and prudent mother in recent years less than demure young women have become central to urban mythology and the content of culture the cultic fascination with the figure of a deviant school girl which has some of its earliest roots in the nineteenth and early twentieth centuries likewise re emerged and proliferated in fascinating and timely ways in the 1990s and 2000s through exploring the history and politics underlying the cult of girls in contemporary japanese media and culture this book presents a striking picture of contemporary japanese society from the 1990s to the start of the 2010s at its core is an in depth case study of the media delight and panic surrounding delinquent prostitute schoolgirls sharon kinsella traces this social panic back to male anxieties relating to gender equality and female emancipation in japan in each chapter in turn the book reveals the conflicted nostalgic pornographic and at times distinctly racialized manner in which largely male sentiments about this transformation of gender relations have been expressed the book simultaneously explores the stylistic and flamboyant manner in which young women have reacted to the weight of an obsessive and accusatory male media gaze covering the often controversial subjects of compensated dating enjo kôsai the role of porn and lifestyle magazines the historical sources and politicized social meanings of the schoolgirl and the racialization of fashionable girls schoolgirls money rebellion in japan will be invaluable to students and scholars of japanese culture and society sociology anthropology gender and women s studies

Japan's Postwar 2013-03-01 since the end of the 1960s japan s power in the world has largely been linked to its economic successes while it has pursued a decidedly pacifist post war foreign policy recently however there has been talk of constitutional reform especially since the new security legislation of 2016 coupled with the conservative tilt of the two houses there is evidence to suggest that japan s approach to exercising its power could be changing japan s world power therefore seeks to examine the nature of japan s power today showing how the country s influence on the global stage appears to be shifting from economic and financial to more political and military featuring a team of japanese international relations experts each chapter analyses the different facets of japanese power evaluating both its current status and the challenges which lie ahead ultimately however this book demonstrates that despite recent developments and changes the way in which japan exercises its power remains decidedly different from other major powers as it continues to be guided by its pacifist identity providing a multi faceted assessment of japan s power as well as its weaknesses this book will be useful to students and scholars of japanese politics asian foreign policy and asian politics in general

The Transformation of the Japanese Left 2009-09-23 the routledge handbook of japanese media is a comprehensive study of the key contemporary issues and scholarly discussions around japanese media covering a wide variety of forms and types from newspapers television and film to music manga and social media this book examines the role of the media in shaping japanese society from the meiji era s intense engagement with western culture to our current period of rapid digital innovation featuring the work of an international team of scholars the handbook is divided into five thematic sections the historical background of the japanese media from the meiji restoration to the immediate postwar era japan s national and political identity imagined and negotiated through different aspects of the media

including japan s lost decade of the 1990s and today s post fukushima society the representation of japanese identities including race gender and sexuality in contemporary media the role of japanese media in everyday life the japanese media in a broader global context taking an interdisciplinary approach this book will be of use to students and scholars of japanese culture and society asian media and japanese popular culture
