*Democracy* 1995 this authoritative and thought provoking history takes a fresh view of what was a period of unprecedented and rapid change assuming no prior knowledge of the subject hugh cunningham provides a clear narrative of political events and an analysis of change and continuity in ideas and in economic and social structure britain is set firmly in the context of world power and the possession of empire an overarching theme is the challenge presented by democracy in a period framed by the first and fourth reform acts democracy had no stable meaning and its opponents were just as vocal as its advocates the book explores its implications for the role of the state for the governance of empire and for the relationship between the different nations within the united kingdom

The Democratic Challenge 1992 carl schmitt s thought serves as a warning against the dangers of complacency entailed by triumphant liberalism his conception of politics is a sharp challenge to those who believe that there is a third way between the left and right and that the increasing moralization of political discourse constitutes a great advance for democracy schmitt reminds us forcefully that the essence of politics is struggle and that the distinction between friend and enemy cannot be abolished contributions gregoris ananiadis agostino carrino catherine colliot thélène jorge dotti david dyzenhaus paul hirst jean françois kervégan chantal mouffe ulrich preuss slavoj zizek and an important essay by carl schmitt available in english for the first time

*The Challenge of Democracy* 2014-10-29 this text provides a critical but systematic overview of democratic theory and practice in the contemporary world the authors show that recent developments are more complex than admitted by proponents of the idea of a democratic world with what they call de democratization of various forms running in parallel with democratization

*The Challenge of Carl Schmitt* 1999 this innovative book investigates the paradoxical situation whereby organized crime groups authoritarian in nature and anti democratic in practice perform at their best in democratic countries it uses examples from the united states japan russia south america france italy and the european union

*The Democratic Challenge* 2009-05-18 citizens are political simpletons that is only a modest exaggeration of a common characterization of voters certainly there is no shortage of evidence of citizens limited political knowledge even about matters of the highest importance along with inconsistencies in their thinking some glaring by any standard but this picture of citizens all too often approaches caricature paul sniderman and benjamin highton bring together leading political scientists who offer new insights into the political thinking of the public the causes of party polarization the motivations for political participation and the paradoxical relationship between turnout and democratic representation these studies propel a foundational argument about democracy voters can only do as well as the alternatives on offer these alternatives are constrained by third players in particular activists interest groups and financial contributors the result voters often appear to be shortsighted extreme and inconsistent because the alternatives they must choose between are shortsighted extreme and inconsistent facing the challenge of democracy features contributions by john aldrich stephen ansolabehere edward carmines jack citrin susanna dilliplane christopher ellis michael ensley melanie freeze donald green eitan hersh simon jackman gary jacobson matthew knee jonathan krasno arthur lupia david magleby eric mcghee diana mutz candice nelson benjamin page kathryn pearson eric schickler john sides james stimson lynn vavreck

**Organised Crime and the Challenge to Democracy** 2004-06 the rise of china along with problems of governance in democratic countries has reinvigorated the theory of political meritocracy but what is the theory of political meritocracy and how can it set standards for evaluating political progress and regress to help answer these questions this volume gathers a series of commissioned research papers from an interdisciplinary group of leading philosophers historians and social scientists the result is the first book in decades to examine the rise or revival of political meritocracy and what it will mean for political developments in china and the rest of the world despite its limitations meritocracy has contributed much to human flourishing in east asia and beyond and will continue to do so in the future this book is essential reading for those who wish to further the debate and perhaps even help to implement desirable forms of political change

**Facing the Challenge of Democracy** 2011-10-10 the book examines how industrial leaders met the challenge from the democratic movements and how this affected democratisation processes and management models in the nordic region

**The East Asian Challenge for Democracy** 2013-08-12 this book examines the recent evolution of online spaces and their impact on networked democracy through an illuminating mix of theoretical and methodological analysis contributors provide an understanding of how a range of individuals and groups including activists and ngos governments and grievers are using digital technologies to influence public debates contributions consider these phenomena in a global contemporary context providing within the same volume rigorous examinations of the design of digital platforms for deliberation users attempts to manipulate those platforms and the ways activists and governments are responding to emerging threats to democratic discourse providing diverse global case studies this collection is a valuable tool for academics within and beyond the fields of new media communication and information policy and governance

*The Democratic Challenge to Capitalism* 2001-01 terrorist violence is no novelty in human history and while government reactions to it have varied over time some lessons can be learnt from the past indeed the debate on when and how a state should use emergency powers that limit individual freedoms is nearly as old as the history of political thought after reviewing some history of state responses to terrorist violence and their efficacy this book sets out to assess the effects of contemporary counterterrorism law and policies on democratic states in particular it considers the interaction between national and international law in shaping and implementing anti terror measures and the difficult role of the judiciary in striking a balance between security concerns and fundamental rights it also examines the strains this has caused on some democracies especially a blurring in the separation of powers between the legislative executive and judicial branches of government giving reason to enquire afresh whether new paradigms are needed finally the issue of whether the doctrine of constitutionalism can provide an appropriate frame of analysis to encapsulate current developments in international law in response to terrorism is broached by drawing on the expertise of historians political scientists and lawyers this book promotes transdisciplinary dialogue recognising that counterterrorism is an issue at the intersection of law and politics that has profound implications for democratic institutions and practices

**Challenge of Democracy Brief Revised, Fourth Edition with Election Magazine and Map** 2001-12-01 this collection brings together leading political scientists in order to address the challenges faced by democracy in the twenty first century the contributors tackle the changing nature of democratic ideas in particular equality in society and the satisfaction of citizens they examine changing patterns of political involvement from voting to new forms of participation and protest using the internet and new technologies finally they look at the challenge to democracy posed by the changing nature of state institutions party systems bureaucracy and e government regulation and the processes of institutional development

**Platforms, Protests and the Challenge of Networked Democracy** 2020-07-24 this book represents the first comprehensive study of how technocracy currently challenges representative democracy and asks how technocratic politics undermines democratic legitimacy how strong is its challenge to democratic institutions the book offers a solid theory and conceptualization of technocratic politics and the technocratic challenge is analyzed empirically at all levels of the national and supra national institutions and actors such as cabinets parties the eu independent bodies central banks and direct democratic campaigns in a comparative and policy perspective it takes an in depth analysis addressing elitism meritocracy de politicization efficiency neutrality reliance on science and distrust toward party politics and ideologies and their impact when pitched against democratic responsiveness accountability citizens input and pluralist competition in the current crisis of democracy this book assesses the effects of the technocratic critique against representative institutions which are perceived to be unable to deal with complex and global problems it analyzes demands for competent and responsible policy making in combination with the simultaneous populist resistance to experts the book will be of key interest to scholars and students of comparative politics political theory policy analysis multi level governance as well as practitioners working in bureaucracies media think tanks and policy making

**Challenge to Democracy** 1934 the time has come to challenge many of the age old assumptions about schools and school learning in this timely book leading thinkers from around the world offer a different vision of what schools are for they suggest new ways of thinking about citizenship lifelong learning and the role of schools in democratic societies they question many of the tenets of

school effectiveness studies which have been so influential in shaping policy but are essentially backward looking and premised on school structures as we have known them each chapter confronts some of the myths of schooling we have cherished for too long and asks us to think again and to do schools differently chapters include democratic learning and school effectiveness learning democracy in an age of managerial accountability democratic leadership for school improvement in challenging contexts this book will be of particular interest to anyone involved in school improvement and effectiveness including academics and researchers in this field of study headteachers and lea advisers will also find this book a useful resource

*Counterterrorism: Democracy's Challenge* 2008-07-30 examining germany and the united states this book argues that immigration policy in western democracies is unjust and undemocratic

**Computers and Democracy** 1987 this book analyzes how mainstream and new parties are building their digital platforms and transitioning from traditional offline organizations into the digital world the authors present an innovative empirical exploration of the democratic consequences and technical challenges of the digitalization of party organizations from a comparative perspective they provide an original account of how party digital platforms are regulated and used and a crucial discussion of the main technological and democratic issues that political parties face in their digital transition further the authors assess the consequences of these digitalization processes for political participation and party membership as well as the impact on party organizational models and electoral campaign potential the book looks into one of the less studied aspects of digital democracy also presenting empirical evidence and case studies it presents different parties and their adoption of digital participation platforms from the pirate parties in northern europe to podemos in spain la france insoumise in france the five stars movement in italy or the german greens therefore the book is a must read for scholars of political science policy makers and practitioners interested in a better understanding of the transition of political parties into the digital world

**Challenges to Democracy** 2016-05-06 democratic development in central and eastern europe is not a finished project nor is its progress immune to internal and external threats the current social economic ethnic and political situation within the region presents new dangers this text identifies and analyses challenges to current east central european democracies in terms of potential deconsolidation of democracy reflected in the changes in the institutional and procedural framework polity and in the choice of instruments and strategies in the policy area specifically examining the regimes of the czech republic hungary poland slovakia and slovenia these challenges include political extremism and violence corruption ethnic and religious conflicts presenting original central european data and utilising the concept of consolidation of democracy from von beyne and merkel's concept the book demonstrates that these challenges are as much influenced by imported phenomena such as immigration organized crime and other potential systemic undemocratic volatilities as the domestic situation this text will be of key interest to scholars and students east european politics post soviet politics eu studies security and strategic studies international relations area studies modern history and sociology

**Challenge of Democracy Brief, Fourth Edition and E1 +** 2000-12-01 is democracy the best form of government what are the hallmarks of a good democracy these questions were asked in ancient times and we are still trying to find the answers today we have learned at least that there is no perfect democracy democratically ruled nations try to strike a difficult balance between equality and liberty as well as between majority and minorities they try to maintain order in society while allowing for the greatest possible expressions of opinion at the same time democracy demands and democracy challenges and as a system of government democracy is itself challenged today by globalization and the development of digital media against this background and in light of political and economic events in asia or in the arab world there is another incessant question is democracy still up to date but of course democracies perform generally better and ensure peace more successfully than do other forms of government democracy an ongoing challenge illustrates why this visual reader uses the power of images to complement the text resulting in a compendium of the history and development of democracy and offers insight into the contemporary debates

*Globalism and Local Democracy* 2003 reviewing some history of state responses to terrorist violence and their efficacy this book sets out to assess the effects of contemporary counterterrorism law and policies on democratic states it also considers the interaction between national and international law in shaping and implementing anti terror measures

*The Technocratic Challenge to Democracy* 2020-03-09 introduction populism why and why now populism as mobilization and as a party populist governments and their logic populism and constitutionalism alternatives to populism

Democracy 2013 this text discusses the economic social and political implications of redirecting labour and capital from a military based to a post cold war economy

**Democratic Learning** 2004 direct democracy involves citizens in discussion and decisions about what the government is to do rather than leaving this to officials or parliaments it thus challenges the restrictions placed by representative democracies such as britain and the united states on political consultation and popular participation

*Immigration as a Democratic Challenge* 2000-05 this book with contributions from leading scholars in the field presents a critical overview of much of the recent literature on political parties it systematically assesses the capacity of existing concepts typologies and methodological approaches to deal with contemporary parties it critically analyses the decline of parties literature both from a

conceptual perspective and with regard to antiparty attitudes among citizens on the basis of empirical analyses of survey data it systematically re-examines the underpinnings of rational choice analyses of electoral competition as well as the misapplication of standard party models as the catch-all party several chapters re-examine existing models of parties and party typologies particularly with regard to the capacity of commonly used concepts to capture the wide variation among parties that exist in old and new democracies today and with regard to their ability to deal adequately with the new challenges that parties are facing in rapidly changing political social and technological environments in particular two detailed case studies demonstrate how party models are significant not only as frameworks for scholarly research but also insofar as they can affect party performance other chapters also examine in detail how corruption and party patronage have contributed to party decline as well as the public attitudes towards parties in several countries in the aggregate the various contributions to this volume reject the notion that a decline of party has progressed to such an extent as to threaten the survival of parties as the crucial intermediary actors in modern democracies the contributing authors argue however that parties are facing a new set of sometimes demanding challenges not only have parties differed significantly in their ability to successfully meet these challenges but the core concepts typologies party models and methodological approaches that have guided research in this area over the past 40 years have met with only mixed success in adequately capturing these recent developments and serving as fruitful frameworks for analysis this book is intended to remedy some of these shortcomings

**Creating Action Space** 1997-12-31 provides a comparative analysis of church-state issues in the United States the Netherlands Australia England and Germany and argues that the US is unique in the way it resolves religious freedom and religious establishment questions

**Digital Parties** 2021-10-12 in 1990 Nepal's people's movement reduced King Birendra from an absolute ruler to a constitutional monarch this book is the first academic analysis of these events and places the revolution of 1990 within the context of Nepali history Louise Brown examines the background to Nepal's recent upheavals as well as covering the country's early history and its continuing problems of national integration the previous unsuccessful democratic experiment and the nature of monarchical rule are discussed within an analysis of Nepal's social and economic modernisation the evolution of political parties Nepal's foreign relations and development issues and the way in which these have moulded the political system are explored in depth drawing on extensive interviews with leading politicians and influential figures the author provides a comprehensive survey of the Himalayan kingdom's political development this is an original contribution to the debate on democratization in the developing world

**Challenges to Democracies in East Central Europe** 2018-02-05 can democracy be taught and how this book examines many examples of educational activities focusing on democracy and citizenship that have been carried out by institutions taking part in UNESCO's associated schools projects in different parts of the world readers will find a range of lively and practical examples that are workable even with limited material resources

**Democracy** 2013 the structure of the book is unconventional the issues presented are extremely contextual subject to an ongoing discussion from the scientific point of view the territorial differentiation in the traditional uniform of the nation-state is simply reconfigured and reshaped due to the new logic new logic of internal market competition

**The Challenge of Democracy** 1994-01-01 thirty years have passed since in 1987 formal democratization was achieved in South Korea since then the country has undergone the two-turnover test Huntington and it overcame economic financial and political crises however social inequality is higher than before democratization social conflict has been exacerbating and political polarization has been on the rise South Korea's democracy has been going through a continuous stress test trying the polity's capacity to heal social conflict integrate society and mature politics as meeting these challenges is key to sustainable consolidation of democracy the chapters of this edited volume written by experts from South Korea and Germany in respective fields examine the way in which South Korea has coped with these challenges in its political system political economy and political society since its transition to formal democracy and provide a focused critical assessment of three decades after democratization

**A Challenge to Democracy** 1948 the events of September 11 and the subsequent war on terrorism have provoked widespread discussion about the possibility of democracy in the Islamic world such topics as the meaning of jihad the role of clerics as authoritative interpreters and the place of human rights and toleration in Islam have become subjects of urgent public debate around the world with few exceptions however this debate has proceeded in isolation from the vibrant traditions of argument within Islamic theology philosophy and law Islam and the challenge of democracy aims to correct this deficiency the book engages the reader in a rich discourse on the challenges of democracy in contemporary Islam the collection begins with a lead essay by Khaled Abou El-Fadl who argues that democracy especially a constitutional democracy that protects basic individual rights is the form of government best suited to promoting a set of social and political values central to Islam because Islam is about submission to God and about each individual's responsibility to serve as His agent on earth Abou El-Fadl argues there is no place for the subjugation to

human authority demanded by authoritarian regimes the lead essay is followed by eleven others from internationally respected specialists in democracy and religion they address challenge and engage about the work the contributors include john esposito muhammad fadel noah feldman nader hashemi bernard haykel muqtedar khan saba mahmood david novak william Quandt Kevin Reinhart and Jeremy Waldron
