true story about a group of people survivors of an airplane crash in the andes and their resorting to cannibalism in order to stay alive

Mortal Rituals

2013-08-13

a psychology professor examines what the survivors of the airplane crash hailed the miracle of the andes can show us about human evolution on december 21 1972 sixteen young survivors of uruguayan air force flight 571 were rescued after spending ten weeks stranded at the crash site of their plane high in the remote andes mountains the incident made international headlines and spawned several best selling books fueled partly by the fact that the young men had resorted to cannibalism to survive matt rossano examines this story from an evolutionary perspective weaving together findings and ideas from anthropology psychology religion and cognitive science during their ordeal these young men broke civilized taboos to fend off starvation and abandoned civilized modes of thinking to maintain social unity and individual sanity through the power of ritual the survivors were able to endure severe emotional and physical hardship rossano ties their story to our story seeing in the mortal rituals of this struggle for survival a reflection of what it means to be human rossano s narrative describes a microcosm of human evolution and i think this book will grab the interest of many readers students as well as the

general public as it teaches essential facts about the way homo sapiens evolved david hicks stony brook university and clare college cambridge university rossano masterfully weaves a moving contemporary drama with a compelling account of the evolutionary history of ritual and religion an impressive accomplishment and a truly captivating read from start to finish richard sosis university of connecticut cofounder and coeditor of religion brain behavior
