The Functional Art

2012-08-22

unlike any time before in our lives we have access to vast amounts of free information with the right tools we can start to make sense of all this data to see patterns and trends that would otherwise be invisible to us by transforming numbers into graphical shapes we allow readers to understand the stories those numbers hide in this practical introduction to understanding and using information graphics you ll learn how to use data visualizations as tools to see beyond lists of numbers and variables and achieve new insights into the complex world around us regardless of the kind of data you re working with business science politics sports or even your own personal finances this book will show you how to use statistical charts maps and explanation diagrams to spot the stories in the data and learn new things from it you ll also get to peek into the creative process of some of the world s most talented designers and visual journalists including condé nast traveler s john grimwade national geographic magazine s fernando baptista the new york times steve duenes the washington post s hannah fairfield hans rosling of the gapminder foundation stanford s geoff mcghee and european superstars moritz stefaner jan willem tulp stefanie posavec and gregor aisch the book also includes a dvd rom containing over 90 minutes of video lessons that expand on core concepts explained within the book and includes even more inspirational information graphics from the world s leading designers the first book to offer a broad hands on introduction to information graphics and visualization the functional art reveals why data visualization should be thought of as functional art rather than fine art how to use color type and other graphic tools to make your information graphics more effective not just better looking the science of how our brains perceive and remember information best practices for creating interactive information graphics a comprehensive look at the creative process behind successful information graphics an extensive gallery of inspirational work from the world s top designers and visual artists on the dvd rom in this introductory video course on information graphics alberto cairo goes into greater detail with even more visual examples of how to create effective information graphics that function as practical tools for aiding perception you ll learn how to incorporate basic design principles in your visualizations create simple interfaces for interactive graphics and choose the appropriate type of graphic forms for your data cairo also deconstructs successful information graphics from the new york times and national geographic magazine with sketches and images not shown in the book all of peachpit s ebooks contain the same content as the print edition you will find a link in the last few pages of your ebook that directs you to the media files helpful tips if you are able to search the book search for where are the lesson files go to the very last page of the book and scroll backwards you will need a web enabled device or computer in order to access the media files that accompany this ebook entering the url supplied into a computer with web access will allow you to get to the files depending on your device it is possible that your display settings will cut off part of the url to make sure this is not the case try reducing your font size and turning your device to a landscape view this should cause the full url to appear

An Introduction to the Philosophy of Art

2003-09-25

richard eldridge presents a clear and compact survey of philosophical theories of the nature and significance of art drawing on materials from classical and contemporary philosophy as well as from literary theory and art criticism he explores the representational expressive and formal dimensions of art and he argues that works of art present their subject matter in ways that are

of enduring cognitive moral and social interest his accessible study will be invaluable to students and to all readers who are interested in the relation between thought and art

An Introduction to Greek Art

2015-04-23

the four centuries between the composition of the homeric epics and the conquests of alexander the great witnessed an immensely creative period in greek art one full of experimentation and innovation but time has taken its toll damaged statues have lost their colour and wall paintings have been totally destroyed and yet sympathetic study of surviving sculpture and of drawing on vases can give extraordinary insight into and appreciation of these once brilliant works this book designed originally for students introduces the reader to greek sculpture and vase painting in the critical period from the eighth to the fourth centuries bc the works discussed are generously illustrated and lucidly analysed to give a vivid picture of the splendor of greek art the up dated second edition includes a new chapter examining art in greek society a timeline to help relate artistic development to historical events an explanation of how dates bc are arrived at a brief overview of greek temple plans and a further reading list of recent books this clear approachable and rigorous introduction makes the beauty of greek art more readily accessible and comprehensible balancing description with interpretation and illustration and is an invaluable tool to help develop insight appreciation and comprehension

Renaissance Art: A Very Short Introduction

2005-04-21

a new edition of this bestselling introduction to aesthetics and the philosophy of art includes new sections on digital music and environmental aesthetics all other chapters have been thoroughly revised and updated

Philosophy of the Arts

2006-09-07

praised in its original edition for its up to date rigorous presentation of current debates and for the clarity of its presentation robert stecker s new edition of aesthetics and the philosophy of art preserves the major themes and conclusions of the original while expanding its content providing new features and enhancing accessibility stecker introduces students to the history and evolution of aesthetics and also makes an important distinction between aesthetics and philosophy of art while aesthetics is the study of value philosophy of art deals with a much wider array of questions including issues in metaphysics epistemology the philosophy of mind as well value theory described as a remarkably unified introduction to many contemporary debates in aesthetics and the philosophy of art stecker specializes in sympathetically laying bear the play of argument that emerges as competing views on a topic engage each other this book does not simply present a controversy in its current state of play but instead demonstrates a philosophical mind at work helping to advance the issue toward a solution

Aesthetics and the Philosophy of Art

2010-02-16

this clear and concise new introduction examines all the major debates and issues in the field of art history using a wide range of well known examples dana arnold also examines the many different ways of writing about art and the changing boundaries of the subject of art history other topics covered include the canon of art history the role of the gallery blockbuster exhibitions the emergence of social histories of art such as feminist art history or queer art history and the impact of photography the development of art history using artifacts such as the altarpiece the portrait or pornography to explore social and cultural issues such as consumption taste religion and politics is discussed and the book also explains how the traditional emphasis on periods and styles originated in western art production and can obscure other approaches

Art History

2001

the short story of art is a pocket guide to key movements works themes and techniques a new and innovative introduction to the subject of art simply constructed the book explores 50 key works from the wall paintings of lascaux to damien hirst installations and then links these to sections on art movements themes and techniques the design of the book allows the reader to easily navigate their way around key periods artists and styles accessible and

concise it simplifies and explains the most important and influential concepts in art and shows how they are connected the book explains how why and when art changed who introduced certain things what they were where they were produced and whether they matter it demystifies artistic jargon giving readers a thorough understanding and broad enjoyment of art susie hodge has culled through hundreds of art movements to highlight and present 36 that illustrate transitions of art its ideas representations characteristics and production from prehistoric times up to the dynamic shifts of the 1960s and 70s as complex as art history is this book is a welcome succinct introduction to some classic western masters cindy helm new york journal of books excellent introduction to the subject a good quality book tightly bound and well illustrated colin amazon reviewer the short story of art is an attractive volume that serves as a convenient introduction to major movements works themes and techniques of western art the works within are featured more for their seminal or illustrative nature than their fame per se so the story part of the title is apt the cross referencing and other works by sections makes it clear that this book is encouraging the reader to explore art on his own tommy grooms goodreads reviewer

The Short Story of Art

2017-05-02

since the nineteenth century when art history became an established academic discipline works of art have been read in a variety of ways these different ways of describing and interpreting art are the methodologies of artistic analysis the divining rods of meaning regardless of a work's perceived difficulty an art object is in theory complex every work of art is an expression of its culture time and place and its maker the artist and is dependent on its media what it's made of the methodologies discussed here formal analysis iconology and iconography marxism feminism biography and autobiography psychoanalysis structuralism race and gender reflect the multiplicity of meanings in an artistic image the second edition includes nineteen new images new sections on race gender orientalism and colonialism and a new epilogue that analyzes a single painting to illustrate the different methodological viewpoints

The Methodologies of Art

Purposes of Art

2019

in the twentieth century avant garde movements have pushed the concept of art far beyond its traditional boundaries in this dynamical process of constant renewal the prestige of thinking about art as a legitimizing practice has come to the fore so it is hardly surprising that the past decades have been characterized by a revival or even breakthrough of philosophy of art as a discipline however the majority of books on aesthetics fail to combine a systematical philosophical discourse with a real exploration of art practice thinking art attempts to deal with this traditional shortcoming it is indeed not only an easily accessible and systematic account of the classical modern and postmodern theories of art but also concludes each chapter with an artist s studio in which the practical relevance of the discussed theory is amply demonstrated by concrete examples moreover each chapter ends with a section on further reading in which all relevant literature is discussed in detail thinking art provides its readers with a theoretical framework that can be used to think about art from a variety of perspectives more particularly it shows how a fruitful cross fertilization between theory and practice can be created this book can be used as a handbook within departments of philosophy history of art media and cultural studies cultural history and of course within art academies though the book explores theories of art from plato to derrida it does not presuppose any acquaintance with philosophy from its readers it can thus be read also by artists art critics museum directors and anyone interested in the meaning of art

The Avant Garde: A Very Short Introduction

2013-01-31

drawing on literary musical and visual representations of and by rastafari darren j n middleton provides an introduction to rasta through the arts broadly conceived the religious underpinnings of the rasta movement are often overshadowed by rasta s association with reggae music dub and performance poetry rastafari and the arts an introduction takes a fresh view of rasta considering the relationship between the artistic and religious dimensions of the movement in depth middleton s analysis complements current introductions to afro caribbean religions and offers an engaging example of the role of popular culture in illuminating the beliefs and practices of emerging religions recognizing that outsiders as well as insiders have shaped the rasta movement since its modest beginnings in jamaica middleton includes interviews with members of both groups including ejay khan barbara makeda blake hannah geoffrey philp asante amen reggae rajahs benjamin zephaniah monica haim blakk rasta rocky dawuni and marvin d sterling
