Odysseus and the Odyssey

the poet of the odyssey was a seriously flawed genius he had a wonderfully inventive imagination a gift for pictorial detail and for introducing naturalistic elements into epic dialogue and a grand architectural plan for the poem he was also a slapdash artist often copying verses from the iliad or from himself without close attention to their suitability with various possible ways of telling the story bubbling up in his

mind he creates a narrative marked by constant inconsistency of detail he is a fluent composer who delights in prolonging his tale with subsidiary episodes yet his deployment of the epic language is often inept and sometimes simply unintelligible the making of the odyssey is a penetrating study of the background composition and artistry of the homeric odyssey martin west places the poem in its late seventh century context in relation to the iliad and other poetry of the time he also investigates the traditions that lie behind it the origins of the figure of odysseus and folk tales such as those of the one eyed ogre and the husband s return

stories from the odyssey homer retold by h l havell greek classics the odyssey is one of two major ancient greek epic poems attributed to homer it is in part a sequel to the iliad the other work ascribed to homer the poem is fundamental to the modern western canon and is the second oldest extant work of western literature the iliad being the oldest scholars believe it was composed near the end of the 8th century bc somewhere in ionia the greek coastal region of anatolia the impersonal character of the homeric poems has left us entirely in the dark as to the birthplace the history and the date of their author so complete is the darkness which surrounds the name of homer that his very existence has been disputed and his works have been declared to be an ingenious compilation drawn from the productions of a multitude of singers it is not my intention here to enter into the endless and barren controversy which has raged round this question it will be more to the purpose to try and form some general idea of the characteristics of the greek epic and to do this it is necessary to give a brief review of the political and social conditions in which it was produced the world as known to homer is a mere fragment of territory including a good part of the mainland of greece with the islands and coast districts of the Ægæan outside of these limits his knowledge of geography is narrow indeed he has heard of sicily which he speaks of under the name of thrinacia and he speaks once of libya or the north coast of africa as a district famous for its breed of sheep there is one vague reference to the vast scythian or tartar race called by homer thracians who live on the milk of mares and he mentions a copper coloured people the red faces who dwell far remote in the east and west the Nile is mentioned under the name of Ægyptus and the egyptians are celebrated by the poet as a people skilled in medicine a statement which is repeated by herodotus the phoenicians appear several times in the odyssey and we hear once or twice of the sidonians as skilled workers in metal as soon as we pass these boundaries we enter at once into the region of fairyland contents introduction telemachus penelope and the suitors the assembly the voyage of telemachus the visit to nestor at pylos telemachus at sparta odysseus and calypso odysseus among the phÆacians the wanderings of odysseus the visit to hades the sirens scylla and charybdis thrinacia odysseus lands in ithaca odysseus and eumÆus the return of telemachus the meeting of telemachus and odysseus the home coming of odysseus the beggar irus penelope and the wooers odysseus and penelope the end draws near signs and wonders the bow of odysseus the slaying of the wooers odysseus and penelope

in this new translation of the odyssey norbert albertson has succeeded in crafting a vivid and thoughtful english version of homer s great work both true to the original and resonant in the present day it is a masterful work of story telling for readers of our time translator s note the greek odyssey is one of the supreme achievements of the human mind and spirit this book is not that odyssey but a translation which like all other translations of the odyssey like any translation of any work of literature is a re creation in a different language of some of the qualities of the original work so at the very beginning a translator must ask himself which qualities of this work can i hope to re create if you look at a number of translations of the odyssey you soon see that each translator has answered that question in his own way a way that differs and usually differs greatly from that of all the others in on translating homer matthew arnold the great victorian poet and critic famously says that the qualities of homer are four he is rapid he is plain and direct in thought and expression he is plain and direct in substance and he is noble in this translation i have aimed at the first three hoping and partly believing that if i succeeded to some degree in those first three the fourth would take care of itself
